Compose and Decompose Numbers From 11 to 19

MCCK.NBT.1 Compose and decompose numbers from 11 to 19 into ten ones and some further ones, e.g. by using objects or drawings, and record each composition or decomposition by a drawing or equation (e.g. 18 = 10 + 8); understand that these numbers are composed of ten ones and one, two, three, four, five, six, seven, eight, or nine ones.

Materials:
NBT.1 Student Recording Sheet
counters

Directions:
See NBT.1 Student Recording Sheet for the ten frames and number sentences.

Explain to the student, I’m going to say a number. I’d like for you to use counters to build that number on the ten frames. Make sure to fill one ten frame first and use additional counters until you reach your number. Then write a number sentence to match your ten frames.

Repeat for the numbers 11, 16, and 19.

See the GKids Manual for determining performance levels. This standard is not reported on the Cobb County Kindergarten Report Card.
